Subject: Task Order No. 4
Libby, Montana Asbestos Project
DRAFT Amendment No. 1 to the Remedial Action Work Plan
for the Former Screening Plant Site

Dear Mr. McGuiggin:

Enclosed please find two copies of DRAFT Amendment No. 1 to the Remedial Action Work Plan (RAWP) for the former Screening Plant Site on Highway 37 in Libby, Montana. Part 1 of DRAFT Amendment No. 1 consists of a listing of engineering design modifications implemented during the 2000 construction season and additional on-site support activities provided at the Screening Plant Site during the 2000 construction season. The design modifications and additional on-site support services were implemented by CDM Federal on short notice as directed by EPA's On-Scene Coordinator and as dictated by site conditions and procedural matters directly related to the overall removal plan for Libby. Included in Part 1 are copies of the design drawings developed during the 2000 construction season.

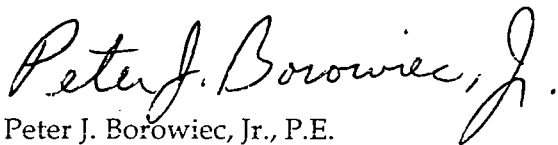

Part 2 of DRAFT Amendment No. 1 consists of a listing of the engineering design and on-site support activities anticipated to be performed during winter 2000-2001 and the 2001 construction season. Once you have reviewed the enclosed draft, please provide us with review comments, or if you prefer, we can meet with you to discuss them. CDM Federal will then finalize Amendment No. 1 to the RAWP dated May 17, 2000 and begin preparing more detailed scopes of work, schedules, and cost estimates for each planned activity.

Mr. John McGuiggin, P.E.
